Company Profile

Leadership Bridges was established in 2018 to help organizations foster greater performance through leadership development, team building, and organizational design services. Our core belief is that success for your organization means success for your community. We work with your staff to design an approach that is right for YOUR organization, preparing your team to respond to changing environments, regulatory requirements, or new opportunities or threats. Our team of content area specialists in finance, operations, IT, and marketing add even more to Leadership Bridges' comprehensive range of services

Core Competencies

Leadership Bridges LLC provides consulting and coaching services for nonprofits, governments, and small businesses. Our Consultants bring a customized, research-based approach that addresses each agency's unique environment.

- Strategic planning
- Teambuilding/Coaching
- Board and Commission training
- Fiduciary duties training
- Behavioral assessments
- Organizational assessments

Past Performance

Past Customers include:

- Danville, KY City Commission
- Licking Valley Community Action Commission
- Community Action of Southern Kentucky
- Danville-Boone County Humane Society
- Kentucky School Boards Association
- Dress for Success Cincinnati
- Clovernook

Differentiators

Leadership Bridges is different from most Consulting firms:

- Our services are custom designed for each engagement – no cookie-cutter approaches.
- We have more than 30 years of experience in leadership and management and plus educational credentials in leadership and teambuilding.
- Our network of consultants includes experts in strategy, board governance, finance, IT, marketing, operations, and coaching.
